Infozech's Billing Solution: iBill

Infozech's iBill offers a comprehensive tower billing solution that covers Rental, Energy, and Fiber billing. With its configurable and scalable features, it enhances billing accuracy, leading to revenue assurance. The solution can be deployed multi-countries, allows for seamless contract and master agreements configuration, integrates with power systems for energy data, and provides historical data analysis to handle disputes efficiently. Customers benefit from reduced billing time, increased revenue realization, significantly reduced disputes, improved data compliance, streamlined processes, and fewer audit findings, making iBill a valuable asset in tower billing management.

WHAT MAKES TOWER BILLING COMPLEX?

1. Complex charges outlined in Master Service and Lease Agreements, resulting in up to 3-5% underbilling.
2. The lack of precise consumption data(with average accuracy of 55-60% only), manual calculations using non-standardized tools causes delays and inaccuracies.
3. Disputes contribute to payment delays, with up to 21 days spent on bill generation, a minimum of 5-6% of bills entering into disputes.

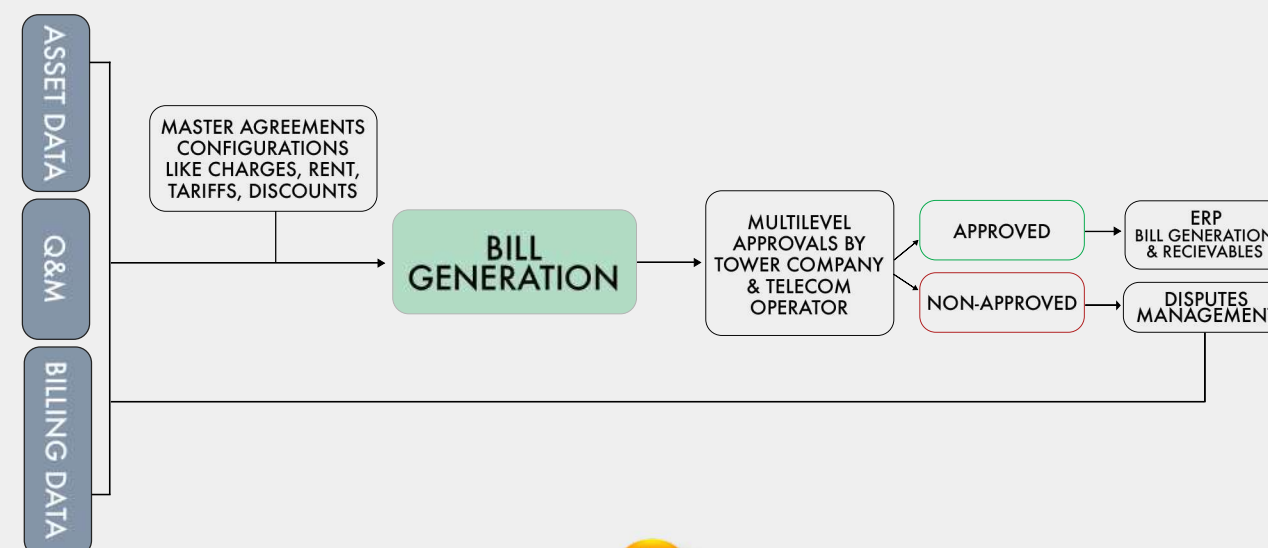

58% FASTER BILLING PROCESS

DISPUTE REDUCTION TO **3%**

95% DATA COMPLIANCE

REVENUE INCREASE BY **5-7%**

60% REDUCTION IN BILLING TEAM SIZE
